**Subject:** PCB Status Update for 1/25/18  
**Attachments:** Minutes - Status Meeting 012518.docx

Dear Geniece and Laura:

Attached are the meeting minutes for last week's PCB status update meeting. As per our discussion, Michelle will load the references from PubMed and WoS into HERO and follow up with HERO in regards to the HERO filter. Michelle will provide EPA with tag structure options for the reviews and send a new EndNote Library after HERO IDs are assigned. ICF will discuss importing tags from SWIFT Active and Access DRAGON into DRAGON Online. EPA will review the MiST manual and the literature search and screening protocol draft. EPA will test DRAGON Online's screening feature in the PCB sandbox assessment. Finally, Geniece will send out a revised version of the SQ framework guidelines before the scheduled February 8 meeting and cancel or reschedule the February 8 status meeting.

Please do not hesitate to contact us with questions or comments about anything mentioned in the meeting minutes.

Best,
